---

|  |   |
|--|---|
| <b>Programming Language:</b> JavaScript.                   | <b>Backend:</b> Node.js, Express.js, RESTful APIs |
| <b>MERN Stack:</b> MongoDB, Express.js, React.js, Node.js. | <b>Database:</b> MongoDB, Mongoose, MySQL         |
| <b>Frontend:</b> HTML, CSS, Bootstrap, EJS.                | <b>Tools:</b> Git, GitHub.                        |

## KEY PROJECT

---

**Roam Nest** – “Accommodation Listing Platform” (*Find your home away from home, wherever you travel*)

Full-stack accommodation platform enabling users to create, browse, and review property listings with authentication and authorization.

- Developed RESTful APIs for listings and user management with Node.js & Express.js.
- Implemented secure authentication using Passport.js and session management.
- Integrated Cloudinary for image uploads and Leaflet for interactive maps.
- Designed responsive UI with EJS, Bootstrap, and JavaScript.

**Tech Stack:** MongoDB, Express.js, Node.js, EJS, Bootstrap, Passport.js, Cloudinary, Leaflet.

---

## Core Strengths

- **Problem Solving:** Systematic approach to debugging complex issues with persistence and analytical thinking.
  - **Team Collaboration:** Effective communication and coordination in collaborative development environments.
  - **Continuous Learning:** Motivated to learn new technologies and overcome technical challenge.
- 

## Certifications & Training

**Full-Stack Development Certification** - Apna College (Comprehensive MERN stack training with hands-on project delivery experience and industry-standard practices).
